

RE: Indiana Telephone Privacy

January 26, 2005

I have been informed that the "Consumer Banker Association" is attempting to weaken Indiana's Telephone Privacy Law.

I am completely and totally against weakening the "no-call" program. The Indiana Telephone Privacy Law should NOT be changed. I have been on the no-call list for several years now, it works great. Please do not change it.

Prior to placing myself on this no call list I would receive a minimum of 2 or 3 calls each night (sometimes very late say after 10:00) from various companies and from credit card and bank companies wanting me to get there cards, or other services and goods. As I am sure you know this can and does become VERY inconvenient and is a hassle that NO ONE should have to put up with.

After I was placed on the no call list I could tell the very day (no joke) that it went active. ALL of my UNWANTED calls stopped. I can not conceive of having to deal with this every night again.

PLEASE DO NOT do anything that would WEAKEN the Indiana Attorney General General's "no call" program.

I enjoy my privacy as I sure all Americans do. I would like to think that Indiana's program could be adopted Nation-Wide so that others may "enjoy the silence" that I have for the last several years.

Thank You
